

¿Cómo configurar la VPN de la UDLAP?

Paso 1. Procedemos a abrir la aplicación de FortiClient, aceptamos el acuerdo y damos clic en Aceptar.

Paso 2. Ahora hacemos clic en Configurar VPN.

Paso 3. Procedemos a realizar la configuración de la conexión por VPN, tal y como se muestra en la siguiente imagen. Hacemos clic en Guardar.

The screenshot shows the FortiClient VPN application window. The title bar reads "FortiClient -- The Security Fabric Agent". The main window has a blue header with the FortiClient logo and "FortiClient VPN". Below the header, there is a notification: "Upgrade to the full version to access additional features and receive technical support." The main content area is titled "New VPN Connection". It features two tabs: "SSL-VPN" (selected) and "IPsec-VPN". The configuration fields are as follows:

- VPN: SSL-VPN (selected)
- Connection Name: VPN_UDLAP
- Description: (empty)
- Remote Gateway: fwback.udlap.mx
- +Add Remote Gateway
- Customize port: 443
- Client Certificate: None
- Authentication: Prompt on login, Save login
- Do not Warn Invalid Server Certificate

At the bottom, there are two buttons: "Cancel" and "Save".

Paso 4. Ingresamos nuestro ID, contraseña y damos clic en Conectar.

The screenshot shows the FortiClient VPN application window. The title bar reads "FortiClient -- The Security Fabric Agent". The main window has a blue header with the FortiClient logo and "FortiClient VPN". Below the header, there is a notification: "Upgrade to the full version to access additional features and receive technical support." The main content area features a central graphic of a globe with a laptop and a lock icon. Below the graphic, there are three input fields:

- VPN Name: VPN_UDLAP
- Username: 16927
- Password: (masked with dots)

At the bottom, there is a "Connect" button.

Si la información es válida se muestra la siguiente imagen indicando que la conexión se estableció exitosamente.
