
Vacancy Notice

Title: Full-time professor

Field of Knowledge: Biomedical Engineering Program.

Organizational Unit: Computing, Electronics and Mechatronics Department

Primary location: Universidad de las Américas Puebla at San Andrés Cholula, Puebla. México.

URL: www.udlap.mx

Type of contract: Fixed term

Salary: Commensurate with qualifications and experience.

Fringe benefits: Health insurance, pension, and retirement benefits.

Teaching load: 6-8 courses per year, depending on research productivity.

Overview of the functions of the position

The applicant will teach, conduct research, and advise in his/her area(s) of expertise. Essential responsibilities include:

- To teach at the undergraduate and graduate levels and lead instructional activities specified in the approved curriculum and in the faculty bylaws. These activities include lecturing, leading seminars, individual and group tutoring, writing, and correcting exams, correcting papers and reports, and conducting and supervising evaluation activities.
- To participate in departmental and school activities, including meetings, committees, course and program evaluation, curriculum development, and grant preparation.
- To provide academic support and advice to students.
- To undertake cutting edge research to contribute to the intellectual mission of the university and development of innovative proposals for graduate studies concerned with computer systems.
- To participate in calls for research proposals.
- To participate in inter-institutional and/or interdisciplinary research projects linked to regional and national companies and/or to internationally recognized institutions.
- To participate in the National System of Researchers (SNII - *Sistema Nacional de Investigadoras e Investigadores*).
- To publish research achievements.

Required qualifications.

Education

- B.S. in Biomedical Engineering.
- Ph.D. in Biomedical Engineering, or a closely related field.
- Area of expertise, one or more of the following: Prosthetics and Rehabilitation, Wearable Devices, Clinical Engineering.

Work Experience

- At least 2 years of undergraduate or graduate teaching.

Vacancy Notice

- Experience in the design, implementation, and management of research (basic and applied science) or consulting projects.
- Demonstrated professional experience in the field of expertise.

Skills/Competencies

- Ability to teach and advise undergraduate or graduate students.
- Excellent analytical skills. Ability to collect, summarize and analyze information from various sources. Proven ability to work effectively in a multidisciplinary and international environment.
- Capacity to build and maintain partnerships with internal and external institutions and companies.
- Ability to communicate effectively on technical and scientific issues in English and Spanish.
- Excellent written and oral communication skills in English and Spanish.

Languages

- English and Spanish.

Desirable qualifications

Work Experience

- Proven experience in mentoring undergraduate or graduate students.
- Participate in the National System of Researchers (SNII - Sistema Nacional de Investigadores e Investigadoras) or have enough scientific /technological production to get in shortly.
